

A smart way to manage self-serve copy and print.

EFI™ Self-Serve AdminCentral, a cloud-based Web application lets you easily manage your M500 copy and print stations anywhere, anytime.

Easy to use and manage from anywhere

EFI Self-Serve AdminCentral lets you configure and manage M500 stations from anywhere – with just a web browser. It's quick and easy to set up M500 stations in one or more locations, based on printing capabilities and customer needs. As needs change, you can easily adjust SKUs, pricing and tax rates.

Low entry and maintenance costs

A flexible cloud-based subscription model makes it easy and affordable to offer new services. AdminCentral eliminates the cost of in-house servers and software update headaches, for low ongoing maintenance expenses. Plus, you can easily add new features and improvements with one-click updates across multiple devices and locations, or filter devices by location.

Real-time status checks and reports anytime

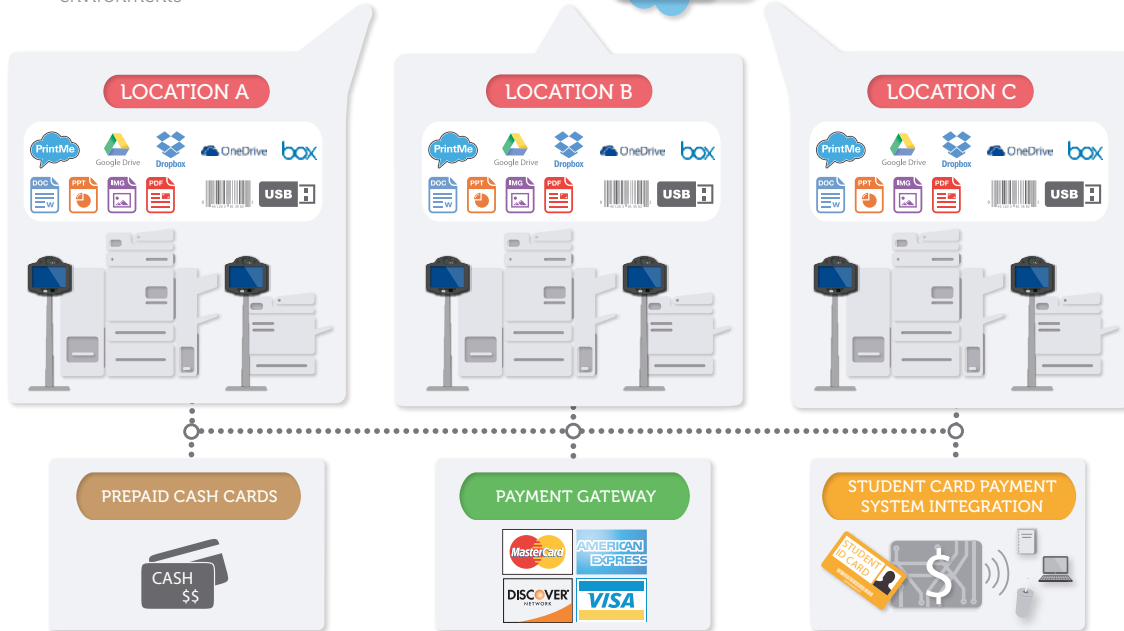

Monitor all your M500 stations in real time using the AdminCentral dashboard. Securely check the status of all devices or get a revenue snapshot by device or location.

Select more detailed reports for a location, device, or transaction. Then print them on the fly or email them as a PDF document.

Self-Serve AdminCentral
